Dear Ed,

Thanks for 6/14 w enclosures, later squid on Middleton, Blakey material returned herewith.

If there is any mail cover, I'm not going to worry about or or be inhibited by it. Least likely at point of origin, difficult except where I put in my rural box.

Intermittently - have had reason to suspect, even what I regard as proof, but there is nothing that can be done except to cripple oneself.

Treasury agent: whatever your judgement is, ok by me.

I saw no report of Frederick Bremer accomplices. Our police did rather well, I think. I was away when it happened, but they seem to have provided physical protection to people, more important than to property.

Check on Quincy Query. Either way, good title.

Thanks again and best,

Sec Ya Mag, Ed.
